

**Amendment to the Specification:**

Please replace the first full paragraph on page 12 with the following amended paragraph:

A first annularly-shaped insulator 53 is mounted onto first elongated member 41 between female ~~pin~~ pin 45 and shunt conductor 45. Similarly, a second annularly-shaped insulator 54 is mounted onto second elongated member 43 between male pin 47 and shunt conductor 65. Together, insulators 53 and 54 serve to mechanically support inner conductor 39 and electrically insulate inner conductor 39 from outer conductor 13, insulators 53 and 54 being constructed of any conventional insulated material, such as Teflon® (PTFE).
